

Zeke Naulty

Full Stack .NET Developer / Database Administrator at NWMLS

.NET Developer / Database Administrator — C#, ASP.NET, T-SQL, SQL Server DBA, Real Estate Tech (RETS)

Summary

Systems-first developer with a long arc in .NET and JavaScript, comfortable moving between desktop, web, and backend work to make long-lived products easier to change.

Focus areas include refactoring legacy code, tightening data flows, and shipping dependable features with clear UX and sensible engineering practices.

Experience

Application Developer / Architect (MLS Specialist) - Solid Earth Inc.

Dec 2006 - Jan 2011 | Huntsville, AL

- Architected and maintained RETS (Real Estate Transaction Standard) client and server software on Oracle and C#, delivering one of the fastest compliant servers for real estate boards.
- Built and optimized configurable ASP.NET MLS frontends driven by XML to support diverse business rules and member board branding.
- Engineered a market analytics and statistics module surfacing deep MLS metrics and real estate board reporting for brokers and administrators.
- Coordinated with MLS stakeholders to ensure high uptime, data freshness, and protocol compliance across broker and board integrations.

Tech: C#, ASP.NET, Oracle, RETS, XML configuration, Performance tuning, Analytics, Reporting

Software Engineer II (.NET & SQL Server) - Storable

Jan 2021 - Dec 2022 | Cary, North Carolina, United States

- Developed and maintained .NET Core services and web applications utilizing SQL Server and PostgreSQL to drive insurance and tenant workflows.
- Managed database performance and stability using Entity Framework and Hangfire for background job scheduling and data synchronization.
- Monitored and conduct performance tuning for backend systems to ensure data eligibility and billing accuracy across desktop and web products.
- Collaborated on domain-driven design and established unit-testing patterns to improve system reliability and maintainability.

Tech: C#, .NET Core, WinForms, ASP.NET, Entity Framework, Hangfire, PostgreSQL, SQL Server, Unit testing, Domain-driven design

Lead Developer / Database Source Control - iAdvantage Software, Inc.

Feb 2017 - Jan 2021 | Cary, NC

- Led delivery of complex, data-driven lab platforms across WebForms, MVC, and WebAPI with user-defined relational data models.
- Guided database source control and deployment methods using Azure DevOps for builds, migrations, and environment management.
- Implemented custom reporting pipelines and RESTful OData/SOAP endpoints to preserve data lineage and audit trails.
- Mentored the development team through code reviews and design reviews to ensure adherence to established coding policies and security standards.

Tech: C#, ASP.NET WebForms, ASP.NET MVC, ASP.NET WebAPI, REST, OData, SOAP, Oracle, PL/SQL, Entity Framework, nHibernate, AngularJS, Bootstrap, CSS, WinForms, Xamarin Forms, Azure DevOps, GLP compliance, Reporting

Senior Software Developer - Rural Sourcing, Inc.

Jul 2013 - Feb 2016 | Augusta, Georgia Area

- Delivered full stack Microsoft-stack projects for multiple clients, specializing in WinForms, ASP.NET, and SQL Server backend development.
- Planned and tracked sprints and technical risks while mentoring junior developers on coding standards and SQL performance habits.
- Conducted production readiness checks and performance tuning for SQL Server databases across diverse client engagements.

Tech: C#, ASP.NET, WinForms, SQL Server, Project management, Mentoring, Code review, Estimation

Programmer/Analyst - Prestage Farms

Jan 2016 - Sep 2016 | Clinton, NC

- Led the modernization of legacy accounting systems into a cohesive .NET WinForms application with integrated SQL Server reporting.
- Designed and implemented role-based security and custom bug reporting systems to streamline the software development life cycle.
- Utilized Agile methodologies to deliver modernization milestones early while maintaining data integrity across inventory and equipment modules.

Tech: C#, VB6, VB.NET, WinForms, Reporting, PDF generation, JIRA, Agile, Team leadership, Role-based security

Skills

Core

- C#
- ASP.NET
- SQL Server Database Administration
- T-SQL
- Relational Database Design
- Performance Tuning
- Full-stack development
- RETS (Real Estate Tech)

Supporting

- HTML
- CSS
- JavaScript
- JSON
- .NET Core
- Entity Framework
- Azure DevOps
- Source Control
- Unit Testing
- Disaster Recovery

Other

- Agile Methodologies
- AngularJS
- Bootstrap
- Cloud Platforms
- Cloud computing (Azure)
- Database Development
- Git
- iOS
- JIRA
- Kanban
- Leadership
- Mentoring
- Microsoft Azure
- Microsoft SQL Server
- Mobile application development
- Oracle

- Problem-solving
- Project management
- Regular Expressions
- Software development
- Team Building
- Team management
- Time management
- Unified Modeling Language (UML)
- Visual Basic .NET
- Web development
- WinForms
- PostgreSQL
- Hangfire
- Xamarin Forms
- OData/SOAP APIs
- Legacy modernization
